1. INTRODUCTION:

When the famous White Revolution of the seventies and eighties – Operation Flood - swept through the country, Jharkhand, then a part of undivided Bihar served merely as a market and saw little of its benefits. Even though India stood self-sufficient in milk production, the eastern state of Jharkhand still depends on import of milk from other states. It was only in June 2013 when Jharkhand State Cooperative Milk Producers' Federation Ltd. (JMF) was formed by the Government of Jharkhand, with an aim to promote dairying as a source of livelihood in the rural parts of the state and propel Jharkhand towards self-reliance in milk and milk products.

JMF under the management of National Dairy Development Board (NDDB) started the milk procurement, processing and marketing activities in the state after taking over the existing Government Dairy at Ormanjhi in August 2014 and subsequently three other dairies at Deoghar, Koderma & Latehar. In 2016 NDDB supported in building a 1 Lakh Litre State of the Art Dairy Plant at Hotwar for the Jharkhand Milk Federation.

JMF has started milk procurement from 12 TLPD in August 2014 and reached up to 130 TLPD in March 2018 and has grown by more than ten-times in last three and half years of its operation. Today JMF is providing an alternative livelihood options to around 20000 rural families but initially, there was a challenge to establish JMF as a reliable institution for milk producers of Jharkhand with many inherited issues like low production and marketable surplus of milk, low interest of farmers towards animal husbandry (milch), dominance of middleman, poor dairy infrastructure etc. To overcome from such unfavourable conditions, utmost cares have been taken to maintain transparency at all levels which is the first and foremost value inherited from NDDB. As a part of maintaining transparency, we have provided milk sample testing facility to all individual pourers in their presence step by step and payment through their individual bank account. By doing this we have given fair and transparent system at village level, remunerative milk price to pourers and avoided involvement of middleman. Farmers have taken it as an opportunity and started milch animal rearing. As a result, milk procurement went up.

NDDB also agreed to lend its brand “Mother Dairy” – which is renowned for its high-quality milk and milk products in the country – to support local brand “Medha”. It not only helped the brand to get established but also enable it capture a reasonable share of the Jharkhand Milk market. It is due to the consistent support that Medha receives, it is able to market about 1 lac litres of milk every day. We are thankful to and proud of the people we are associated with in this journey. It is extremely delighting to be able to touch and enrich so many lives at the same time.

Section-1
Notice Inviting Tender (NIT)

TENDER INVITATION DETAIL:
